## The market

When you have been verified, you can access the **Market** by clicking it on the top bar.

## Browsing and searching

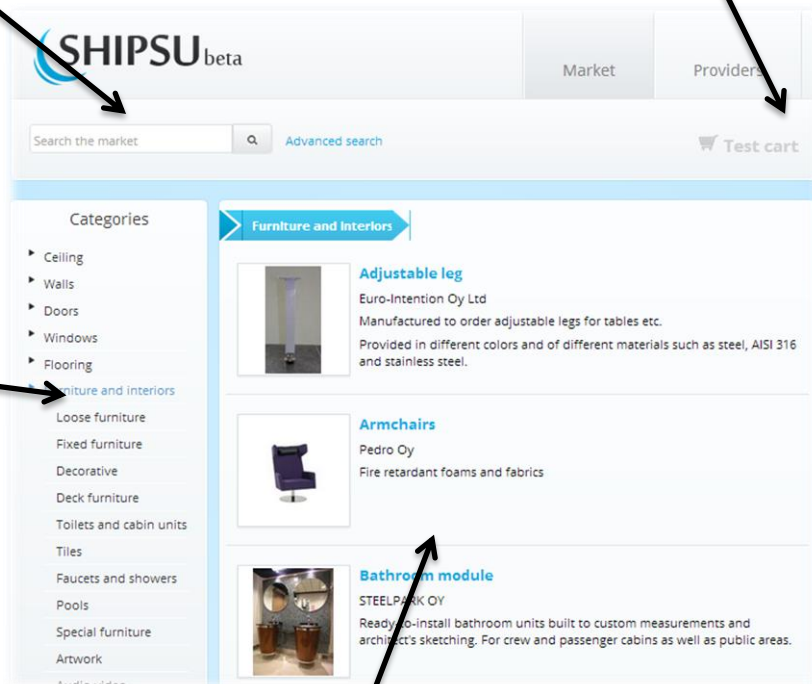

**Search bar** lets you find products or service by company, products name, certification or reference.

**Shopping cart** is the place, where your products will be saved.

In the beginning you are automatically given one cart, but you can make more of them.

**Categories** here you can browse through everything in the market by Category that show's everything in that top category.

You are able to narrow your field by choosing a sub-category.

Your search results and browsing will be presented here

You can receive more information about a certain product by clicking its' name

## Entering products/services to Order cart

By choosing a product, you will get to more specific information about it.

From here you can add a certain amount of products and add notes for yourself about the products.

Moving products to order cart doesn't bind you to buy them, but it's a shopping list that you can modify.
