Open Market

When as a buyer you are unable to find the product or service you wish to source in the Market, make an Open request.

Open requests can be viewed and added in the first page of the Market.

Add new by clicking

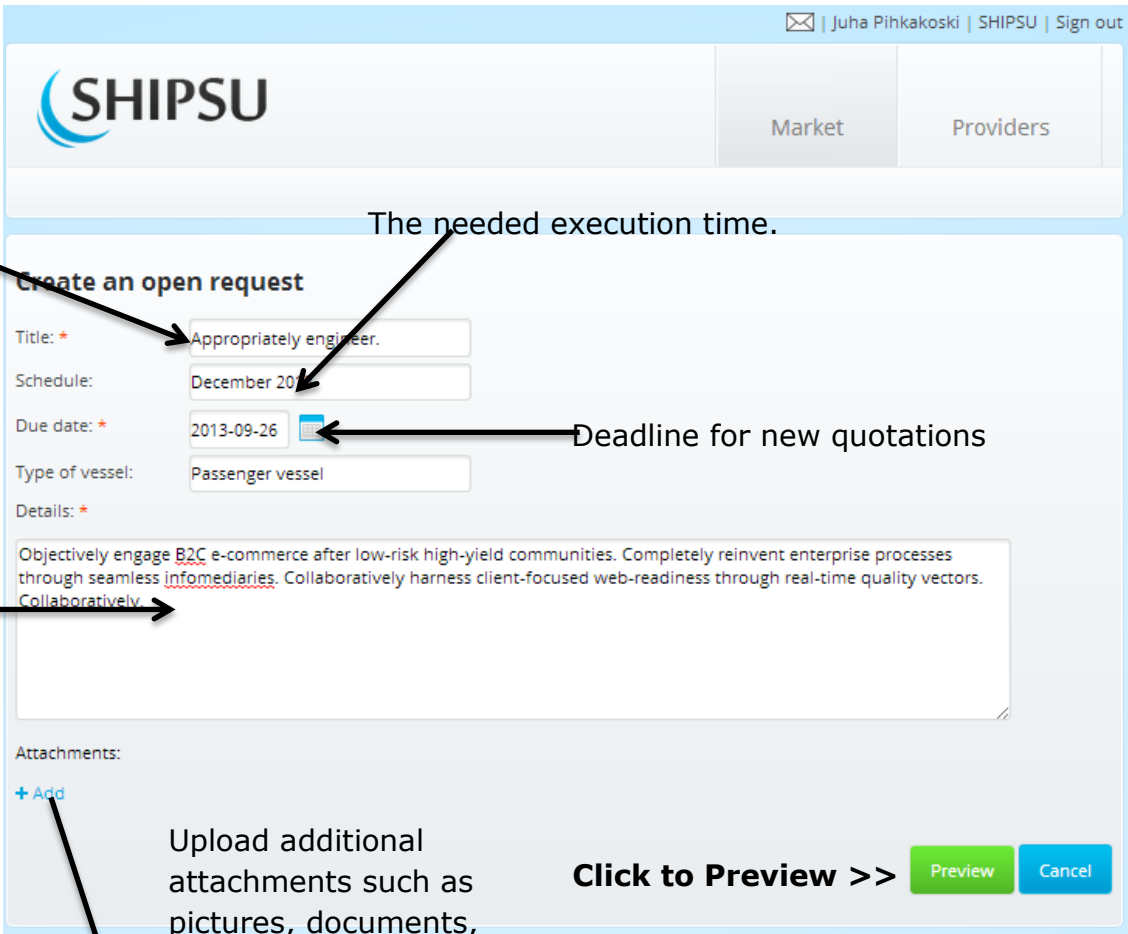

The screenshot shows the SHIPSU Open Market interface. At the top right, there is a user profile for 'Juha Pihkakoski' with a 'Sign out' link. The main header features the SHIPSU logo, a search bar with the text 'Search the market', an 'Advanced search' link, and an 'Order cart' icon. A left sidebar lists various categories such as Ceiling, Walls, Doors, Windows, Flooring, Furniture and interiors, SS Furniture, Lighting, Electrical, HVAC and piping, Safety and security, Bridge and navigation, Balcony, Engine room, Hydraulic, Paint, and Tools and equipment. The main content area is titled 'Open requests' and includes a 'Create a request' button. Below this is a table of open requests with columns for Title, Valid until, and Added. The table lists five requests: 'Supply of steering gear and rudder', 'Upholstery work for fixed and loose furniture', 'Sofa bed upholstery work', 'Supply of electrical instruments', and 'Electrical installation services'. Below the table is a 'Picks from the Market' section featuring three product cards: 'Fender TYPE K - R...', 'B-0 Glass partiti...', and 'Cable trays'.

Open request information

Insert the information asked to be provided for the purchase you wish to have quotations for
